LOCAL AND GENERAL NEWS.

THE STAGE.

Two Fine Attractions to Close Up

the Week.

"JOCELYN" FRIDAY NIGHT.

Beautiful Rose Coghlan, since her

reputation has been gained, has steadily

refused to exhibit herself in tight. A few

years ago "As You Like It" was played

at Wallick's Theatre, and the coming ap-

pearance of Miss Coghlan in the

"shaped" dress of Rosalind was

looked forward to with much

interest. But she made an inno-

vation in the part and wore top boots,

covering both her calf, knee and thigh,

and "As You Like It" didn't draw. It

was apparently not as they liked it.

Manager Piton has at last persuaded her

to drop this conservative policy, and from

being a Tory in the matter of stage cos-

ture, Miss Coghlan will become a

Liberal. At any rate, there is a scene in

"Jocelyn" where she enacts a boy and in

which she does not wear boots. The

play will be produced at the Grand Fri-

day night.

THE NEW MONEY HAY.

What brain, tired of business clatter,

cannot find restful enjoyment in gazing

on the wide landscape of the opening

scene of "The Old Homestead," on the

realistic farm-house scene, with cling-

ling old-fashioned flowers, and breathe

the fresh air of native hills or plains.

On reason why an audience is so carried

away by this successful play is, because

so many of us were born in the country,

and recognize the fidelity of the scenes

presented. Many a successful banker

and merchant was born in just such an

old red farm-house, and many of us can

remember the stories of our parents

when telling of their early life in the

country.

The glimpses of simple country life,

and the kindly virtues of Joshua Whit-

comb are lessons that have a purifying

and humanizing tendency. "The Old

Homestead" will be given at the Grand

Saturday night.

The Judson Street Railway Motor.

INDIANAPOLIS, Ind., Oct. 23.—A com-

pany is forming here in which President

J. G. Shaffer, of the local street railroad

company, is said to be interested, to in-

troduce in Indiana the Judson motor for

street railways. The principle of the re-

volving screw in a modified form is used

in propelling the car. In the middle of

the track and extending the entire length

of line, is a revolving shaft or drum, 8

inches in diameter. This is to be driven

by compressed air applied at stations

along the line. Small wheels attached to

the car are pressed upon the revolving

drum. The speed of the car and its di-

rection are regulated by the angle at

which these small wheels impinge upon

the drum. It is asserted by the men who

control the invention that the roads can

be built and equipped for less than half

the cost of cable car lines; that the speed

can be instantly and accurately regulated

"BENNIE" STANDS FOR B.

But an Inquirer Had to Buy a Pair of

Shoes to Find It Out.

"I want a pair of B's shoes," said a

man to the floor walker of a big Sixth

avenue shoe store a day or two ago.

"Last made on the left, sir, if you

please."

The man stumbled over a door mat,

struck his shin against the sharp edge of

a settee in his effort to avoid running

over a diminutive mother who was help-

ing fit a large sized child with a pair of

shoes, said something inexcusable not

far enough under his breath to escape the

ears of the diminutive mother; she said:

"Oh, my!" to which the man responded:

"Don't mention it, pray," and tipped his

hat, hurried along, and finally got within

one of the last aisles.

To him a sub-floor walker asked: "Been

swindled?" "Now, I don't know," said

a dash of sarcasm that passed undiscovered.

"Miss Terwilliger, wait on this gentle-

man."

Miss Terwilliger was a pretty little

blonde, and the sarcasm vanished from

the man's tones. She looked up a long

way to the man's eyes and asked: "What

kind of shoes do you wish, sir?" She

looked as full of fun as last week was of

weather. He said: "I want a pair of

girl's school shoes."

"What size, please?"

"Number four and a half Bennie."

That word "Bennie" acted like an in-

roduction from their best friends on all

she salesgirls with one exception. It was fired

off with a good long pressure, and half a

dozen who knew what it meant looked

up and laughed and cast pleasant glances

at the buyer.

Little Miss Terwilliger laughed and

turned away quickly to a dumb waiter

connecting with the stock room in the

basement. "Send me up a pair of girl's

school 4 1/2 Bennie," she called, and then

turned her head away to conceal her

mirth. Presently she returned with a

pair of shoes, size 4 1/2. The man said:

"These are too narrow."

"But you called for Bennie, didn't

you?"

"Yes; but I didn't know what it meant.

I heard one of the salesgirls call for a

"Bennie," and an overpowering curiosity

to find out what "Bennie" was or what

"Bennie" meant led me to call for it. I

saw by the commotion it made that you

have a shop meaning for it. I suppose

"Bennie" is your love name for B, isn't

it?"

"It is the name we use in this store for

B widths."

"Well, then, what does C stand for?"

"Charlie."

"And D?"

"Dave."

"And E?"

"Eddie."

"Bennie, Charlie, Dave, Eddie. And

A, does that stand for Annie?"

"No; A stands for itself. You see, all

the other letters have the E sound, and

calling for them through the speaking

tube we had the same trouble in distin-

guishing between them that you have

over the telephone. So we invented

names to distinguish the widths of the

shoes that correspond in their first letters

with the shoe letters."

"But why did you give them boy's

names? Why didn't you call them Ben-

nie and Clara and Dolly and Emma?"

Queen Victoria to Open Parliament in Person.

MICHAEL DAVITT'S GREAT SPEECH.

Balfour's Proposed Bill for Land Purchases in Ireland—Cautious Commissioners—Fortunes in Iron—Heavy Mail-Car Robbery.

England.

THE QUEEN TO OPEN PARLIAMENT. London, Oct. 30.—In deference to the earnest desire of Lord Salisbury, the Queen has consented to open Parliament in person, and arrangements for the ceremony, which will take place in the first week in February, are already making. The presence of Her Majesty upon

Queen Victoria

the occasion is expected to contribute greatly to the advantage of the government in certain legislation which is to be introduced during the session, and this view of the matter is said to have been presented to the Queen in the endeavor to obtain her consent to exercise her parliamentary prerogative.

THE LONDON COUNCIL COUNCIL.

has adopted a report requesting Parliament to grant to them power to construct subways for various purposes and to compel the companies for their use. They are designed to build and pay for such a subway. The power asked by the Council is extremely arbitrary and mandatory, and it is doubtful that it will be granted to the extent desired.

BALFOUR'S BILL.

LONDON, Oct. 30.—Mr. Geo. Wyndham, private secretary to Mr. Balfour, addressed a meeting at Dover last night, announcing in the course of his speech, that in two days Mr. Balfour would introduce a bill providing for a large system of land purchase in Ireland.

MICHAEL DAVITT'S GREAT SPEECH.

LONDON, Oct. 30.—In his speech before the Parnell Commission, Michael Davitt is daily scoring points in favor of the Parnellites and adding to his already well-established reputation as an eloquent and forcible orator. As his speech progresses public interest in the proceedings, which at the resumption of the sittings of the Commission had become dormant by reason of the withdrawal of Mr. Parnell from the case, awakens, and the court-room is again assuming the appearance it presented when the Nationalist defendants were engaged in their daily occupation of knocking down and fraud upon which the case of the Parnellites rested.

Yesterday Mr. Davitt held his audience breathless, while he recited his life story, and the eyes of many of the court-room were turned to him as he spoke of his being in prison, and of his being in the hands of the British government, and of his being in the hands of the British government, and of his being in the hands of the British government.

CATHOLIC COMMISSIONERS.

LONDON, Oct. 30.—Thomas Callan, formerly of Lowell, Mass., who, with James Hartigan, of Philadelphia, was convicted of attempting to blow up buildings with dynamite, applied to the Parnell Commission yesterday for permission to make a statement in court. The judges insisted that he should first furnish the court with a communication in writing giving an idea of the character of the statement he desired to make.

Scotland.

PORTFOLIO NEWS. LONDON, Oct. 30.—The value of the iron in Canada, Glasgow, since the bottom price was reached has increased one million pounds. The profits of one firm of iron dealers for the year of 1889 have exceeded three million pounds and the profits of three leading iron makers have been between two hundred and fifty thousand and five hundred thousand pounds each for the year.

Germany.

MAIL CAR ROBBERY. BERLIN, Oct. 30.—A railway mail car was robbed at Bremen yesterday of letters and packages containing the aggregate sum of one hundred and sixty thousand marks. There is yet no clue to the robbers.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we are ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. For sale at Dr. A. J. Stone's Drug Store.
